5 Inch 5 Hole Hook and Loop Sanding Disc

Category: Abrasives/Sanding

\$8.45 per pack of 25

Discs 150 grit and finer have a coating of Anti-Clogging Lubricant

Manufactured on the basis of productivity, efficiency, durability, and is extremely cost effective.

Application Suggestions:

Sanding and Finishing of fillers, primers, and wood

Smoothing and cleaning walls

Sanding of panels, old paints and fillers

H&L is what people call the velcro back

5 Inch 5 Hole PSA (Pressure Sensitive Adhesive) Sanding Disc

Category: Abrasives/Sanding

\$6.75 per pack of 25

Discs 150 grit and finer have a coating of Anti-Clogging Lubricant

Manufactured on the basis of productivity, efficiency, durability, and is extremely cost effective.

Application Suggestions:

Sanding and Finishing of fillers, primers, and wood

Smoothing and cleaning walls

Sanding of panels, old paints and fillers

Pressure sensitive disc's have paper covering adhesive.

Just peel and stick.

5 Inch 8 Hole Hook and Loop Sanding Disc

Category: Abrasives/Sanding

\$8.94 per pack of 25

Discs 150 grit and finer have a coating of Anti-Clogging Lubricant

Manufactured on the basis of productivity, efficiency, durability, and is extremely cost effective.

Application Suggestions:

Sanding and Finishing of fillers, primers, and wood

Smoothing and cleaning walls

Sanding of panels, old paints and fillers

H&L is what people call the velcro back

5 Inch 8 PSA (Pressure Sensitive Adhesive) Sanding Disc

Category: Abrasives/Sanding

\$6.65 per pack of 25

5 Inch 8 PSA (Pressure Sensitive Adhesive) Sanding Disc Discs 150 grit and finer have a coating of Anti-Clogging Lubricant Manufactured on the basis of productivity, efficiency, durability, and is extremely cost effective.

Application Suggestions:

Sanding and Finishing of fillers, primers, and wood

Smoothing and cleaning walls

Sanding of panels, old paints and fillers Pressure sensitive disc's have paper covering adhesive. Just peel and stick. ALUMINUM OXIDE Disc

6 Inch 6 Hole H&L Film Back Sanding Disc

Category: Abrasives/Sanding

\$21.05 per pack of 10

Rhynofilm 6 Inch 6 Hole H&L Film Back Sanding Disc

Precision, micron-graded, resin-bonded, polyester film backing. Aggressive cut with uniform finish. Load-resistant coating provides greater efficiency and longer product life. Use on plastic, fiberglass, wood, metal, solid-surface composites. Features

Flexible Film Backing

Micro Finishingv Minderal Grain

Anti Clog Coating Benefits

Grease and Tear Resistant

Minimizes Scratch for ease of polishing

6 Inch 6 Hole Hook and Loop Sanding Disc

Category: Abrasives/Sanding

\$12.05 per pack of 25

Discs 150 grit and finer have a coating of Anti-Clogging Lubricant

Manufactured on the basis of productivity, efficiency, durability, and is extremely cost effective.

Application Suggestions:

Sanding and Finishing of fillers, primers, and wood

Smoothing and cleaning walls

Sanding of panels, old paints and fillers

H&L is what people call the velcro back

9x11 No Load SILICON CARBIDE 220 Grit Sanding Paner

Category: Abrasives/Sanding

\$2.00 per pack of 5

9x11 No Load SILICON CARBIDE 220 Grit Sanding Paper

Grayish/white when treated with zinc stearate (like soap) which reduces clogging.

Harder, sharper, and more friable than A.O. It fragments quickly thus reducing the potential for loading and exposing new sharp edges. Commonly used on hard materials like glass or metal.

Knife makers use fine S.C. belts for sharpening.

Wood workers use white, no-load sheets for fine finishing.

9x11 No Load SILICON CARBIDE 320 Grit Sanding Paner

Category: Abrasives/Sanding

\$2.00 per pack of 5

9x11 No Load SILICON CARBIDE 320 Grit Sanding Paper

Grayish/white when treated with zinc stearate (like soap) which reduces clogging.

Harder, sharper, and more friable than A.O. It fragments quickly thus reducing the potential for loading and exposing new sharp edges. Commonly used on hard materials like glass or metal.

Knife makers use fine S.C. belts for sharpening.

Wood workers use white, no-load sheets for fine finishing.

9x11 Sheet ALUMINUM OXIDE Cabinet Sanding Paper

Category: Abrasives/Sanding

\$2.00 per pack of 5

9x11Sheet ALUMINUM OXIDE Cabinet Sanding Paper

Very tough, Block shaped grit which fragments under heat and pressure.

This friability is desirable, because it exposes new sharp cutting edges.

It is the best all-purpose wood working abrasive.

9x11 Wet/Dry SILICON CARBIDE Cabinet Paper

Category: Abrasives/Sanding

\$3.49 per pack of 5

Specially treated backing and resin allow use both wet and dry, especially suited for final smoothing of varnish, paint and so on.

This material is also used in automotive body shops for final color sanding of paint

Other uses include polishing of plastic and glass

Applications include sanding furniture finishes such as varnish, lacquer, shellac or oil.

Wet/dry sandpaper is made from sharp synthetic silicon carbide, cuts fast and smooth for wet or dry sanding between coats of varnish, paint or other finishes, sanding metal for repainting or prior primer coat, and wet finishing of plastic/fiberglass and top coats. Time and money are more important than ever, and our long lasting sandpaper allow you to get the job done sooner and more economically. Use with water or oil to reduce clogging and extend abrasive life.

Aluminum Oxide Sanding Belt 3x21 120 Grit

Category: Abrasives/Sanding

\$1.10 each

High resistance to clogging

Robust X cloth backing

Product specially developed for portable machines belt sanding

Application Suggestions

Sanding and Finishing

Machine sanding of wood surfaces, sanding off old lacquers and old paint and smoothing of edges

Modified synthetic resin bonding

1-1/2 Inch Re-enforcing Picture Frame Corner Angle

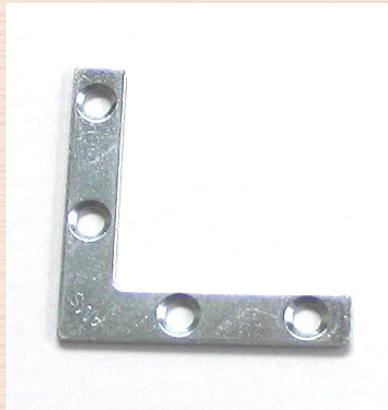

Category: Box/Chest Corners and Handles **\$0.17**

1-1/2" Metal Re-enforcing Corner Angle Picture Frame Plate

1-1/2 x 3/8 inch 4 hole zinc plated plates. A little smaller plate for smaller frames

Suggested size screw is #4x1/2

If purchased with screws, we will supply #4x1/2 zinc plated phillips flat head

2 Inch Re-enforcing Picture Frame Corner Angle

Category: Box/Chest Corners and Handles **\$0.15**

2" Metal Re-enforcing Corner Angle Picture Frame Plate

2 x 3/8 inch 4 hole zinc plated plates. Suggested size screw is #6

If purchased with screws, we will supply #6x1/2 zinc plated phillips flat head pan head

Case Handle

Category: Box/Chest Corners and Handles **\$2.30**

This modern looking handle assembly has a single piece 1/2" x 1-13/16" metal clip at each end of the handle with two .162" Dia. holes for rivets or screws on 1-3/8" centers.

The Handle has a larger grip then the other molded handles at almost 7/8" diamter. This comfortably fits an adult hand under heavy loaded conditions.

Handle is plastic and looks like leather with the thread marks, padded part and texture imprinted on them.

The assembly stands approx. 2-3/4" high and 6-3/8" wide across the clips. Handle is black, hardware is nickel plate. Conservative lifting capacity 35 pounds.

If purchase with screws we will supply #4x1/2 nickel plated phillips flat head screws.

Decorative Box Corner Brass Plated

Category: Box/Chest Corners and Handles **\$0.38**

Each leg is 1-1/4" long and it is 1/2" high at the tip.

It has 2 holes approx .063 diameter for mounting

We also have #1x1/4 round head screws or #18x3/8 Esutcheon pins to fasten the corners

Made in U.S.A.

Decorative Box Edge Protector Brass Plate

Category: Box/Chest Corners and Handles **\$0.98**

The parting line edge protector will keep the corner edges of your beautiful box from fraying and getting dinged up.

The edge protectors are shown here with the box corner which is sold separate.

The edge protectors are 1-1/4" across the front and run 1-1/8" down the side of the box.

They are 5/8" in overall height and have 2- .125" Dia. holes for #4 screws.

We sell the edge protectors in set of 2 (one right hand and one left hand per set.)

We also have the option of either #4x1/4 screws for Fastening the corners

Made in U.S.A.

Continuous Sweep Mini-Quartz Movements

Category: Clock Making

\$5.00 each

These new movements have a second hand that moves in a smooth continuous motion, rather than the stepping motion of most quartz movements. This change not only affects the appearance of the clocks you make, but continuous sweep movements also have the added benefit of being quieter. You will not hear the "clicking" sound every second.

2 3/16" w x 2 3/16" h x 5/8" d. 5/16" Threaded shaft diameter. Order 5/8" For Dials up to 1/4" thick. 3/4" For Dials up to 3/8" thick. 7/8" For Dials up to 1/2" thick.

Complete with 1 set of hands, brass washer, hex nut, and open nut to use with second hand included in price including sweep second hand. If you do not want a second hand, let us know and we will send a closed nut.

Make selection of minute/hour and second hands when purchasing movements. One set of hands and 1 second hand per movement. Runs on 1 "AA Battery.

Decorative Box Corner Nickel Plated

Category: Clock Making

\$0.38

Each leg is 1-1/4" long and it is 1/2" high at the tip.

It has 2 holes approx .063 diameter for mounting

We also have #1x1/4 round head screws or #18x3/8 Esutcheon pins to fasten the corners

Made in U.S.A.

Frost Globe Map Storm Hand Blown Glass Barometer

Category: Clock Making

\$9.50 each

It will predict barometric weather changes by observing the rise and fall of liquid in the storm glass. All you have to do is to add colored distilled water and it is ready to go. The instructions are included. You can use it free standing on it's own, or you can also work it into a project with a wood base and so on but not required.

Variations in barometric pressure are immediately indicated by the level of water in the spout. A low water level in the spout suggests "high pressure", representing fair weather. A high water level in the spout suggests "low pressure" and forecasts poor weather conditions. In cases of severe weather (or major storms), the water may even run out of the spout.

Such changes can be visible on a smaller scale, as the instrument is sensitive enough to measure pressure changes between the attic and basement of a three-story house.

Gold Metal & Glass Sand Timer

Category: Clock Making

\$11.25

This Gold Glass Sandtimer can be mounted to any surface with 3/8" counter-bore x 3/8" depth bottom, underside screws.

The gold timer contains white sand and comes bagged with a set of instructions.

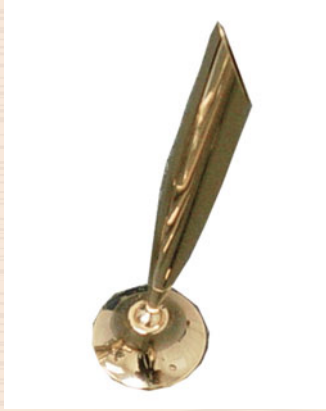

Actual length of time in the glass is 2.5 - 3 minutes.

This sandtimer is considered to be a novelty item than an accurate timing device.

Screws and all parts shown are included.

4.5" mounted height. 2 3/8" width.

Gold Pen Funnel with Screw

Category: Clock Making

\$2.75

Executive Gold-Tone Slim-Line Funnel with Gold-Tone Base
Fits standard pen and pencil sets.

Hechinger RC Movements Radio Control for Atomic Clock Making

Category: Clock Making

\$11.25

Imagine selling a clock that is always accurate to the exact second and automatically sets itself to the correct time at annual daylight savings changes!

These German designed radio controlled movements are the ultimate in time keeping accuracy. A 60kHz radio signal is broadcast from Fort Collins, Colorado, which will keep your radio controlled movement accurate to within one second every million years. This movement is programmed to receive this signal up to four times a day. They will also adjust to daylight savings time!

3-3/4 inch hands included

Requires AA battery Not Included

Dimensions: 3-9/16" High x 2-1/4" Wide x 11/16" Thick. Overall shaft height is 5/8".

Due to radio signal, movement cannot be used with metal dials.

High Torque Clock Movement for Large Hands

Category: Clock Making

\$7.10

Capable of running the longest hands on the market today.

Extra-long clock hands(sold separately- see below)are perfect for use with these high torque movements.

Case dimensions 2 7/32" square x 5/8" thick

Requires one "AA" battery

Hardware included

15/16" Threaded shaft length

Overall shaft length 1-1/4"

For Dials up to 3/4" thick

High Torque Long Movements Hands

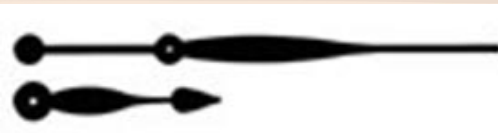

Category: Clock Making

Dries in 15 minutes or less!

Craftsman's Blend enhances the texture of the wood while giving a rich vibrant color.

Safe to use.

No toxic rags to dispose of.

J.W. Etc. Decoupage Plus 4oz.

Category: Finishing & Safety Products

\$2.99

Decoupage is an art form originating in the 17th century. Master artists in Italy imitated Oriental lacquer furniture by enhancing prints and fixing them to furniture. They were then shellacked. England and France copied the form and made beautiful works of art. There has been a resurgence of interest in the art of decoupage throughout the world.

JW etc's Decoupage Plus allows the artist to create a work of art by sealing and adhering an image or images onto almost any kind of surface. Decoupage Plus can be painted on, sponged on, or layered with additional artistic work. When dried covering the work with a depth of varnish allows the composition to glow through.

Decoupage Plus differs from most decoupage products because it is thick and yet gives plenty of time to work with the image before it dries. It is clear and if brushed on, doesn't leave brush strokes. The consistency lets you work with many textures, from napkins to heavy fabrics.

J.W. Etc. Exterior Varnish 8 ounce

Category: Finishing & Safety Products

\$7.49

A clear, water base, non-toxic varnish that protects and beautifies outdoor art/craft projects. The tough, clear finish guards against exposure to harmful weather conditions.

Clear Exterior Varnish by J.W. etc. is a water based, environmentally friendly product that is safe to use. This special formula was created to protect your outdoor art projects against harmful weather conditions. It provides the ultimate "weatherability".

Special ingredients offer extra protection against the sun's harmful ultra-violet rays. It is non-yellowing and dries clear with a tough finish that creates a water resistant barrier. It protects your art pieces against rain, snow, sea spray, even environmental chemicals. This durable and crack resistant varnish safeguards your projects from heat and cold. It's simple to apply, has little odor, and cleans up easily with water.

J.W. Etc. First Step Wood Sealer 16 Ounce

Category: Finishing & Safety Products

\$8.24

Sealing wood is an important "First-Step" in the painting process. Grain rises when paint or water, etc. is applied to raw wood. Sealing and sanding your wood first solves this problem and one coat of First-Step is all that is necessary!

First-Step is non-toxic, water based and odorless when dry. Dries in just minutes (never gels). After using FIRST-STEP you may stain with oil or acrylic stain. FIRST-STEP eliminates warping and seals wood-knots.

Mix First-Step with the paint of your choice for first coat coverage. Simply mix 1/3 First-Step and 2/3 any brand of acrylic paint. This leaves a beautiful linen like base coat.

It's so easy to use. Apply with a sponge or brush, let stand for approximately 20 minutes, or until dry-to-touch, then proceed to sand and tack. Clean up is easy with water.

FIRST-STEP is perfect for any fabric covered project, too.

J.W. Etc. First Step Wood Sealer 8 ounce

Category: Finishing & Safety Products

\$5.49

Sealing wood is an important "First-Step" in the painting process. Grain rises when paint or water, etc. is applied to raw wood. Sealing and sanding your wood first solves this problem and one coat of First-Step is all that is necessary!

J.W. Etc. Formula II Creme Brush Cleaner

Category: Finishing & Safety Products

\$3.99

J.W. etc. Formula II Creme Brush Cleaner is an effective cleaner for both oil and acrylic paint. It can even remove paint stains from clothes!

Formula II revitalizes old brushes (natural or synthetic) and restores the fine chisel. It is non-petroleum based and is non-toxic with a fresh aroma. The cleaner contains lanolin and is safe and kind to your hands. Dirty brushes can be dressed in Formula II and placed in a plastic bag for clean-up later. Repeated use will not harm your finest brushes.

Easy to use. First clean with soap and water to remove most of the paint or stain. Then work Formula II into the bristles to remove all traces of paint or stain.

J.W. Etc. Open Time 4 ounce Extender Retarder

Category: Finishing & Safety Products

\$3.09

Water based products have a tendency to dry quickly. Usually this is a good thing. However, sometimes you need slower drying time.

J.W. Etc's OpenTime lets you work easily with waterbased products by extending the drying time. Add time to all your waterbased paints, stains, sealers, even varnishes. Adding just water to thin or give more drying time can change the formula. An extender/retarder allows you to determine the amount of extra time you need when applying paint, stain, varnish, etc.

OpenTime is great when used for faux-finishing, glazing and/or antiquing.

Simple to use, just add a small amount to the product you are using, adding more, if you need more open time. It is suggested to keep the extender at less than a 1 to 1 mixture with the product you are using. OpenTime is non-toxic and cleans up with water. It couldn't get any easier!

Satin, or Gloss Finish

J.W. Etc. Polyurethane Varnish 16 ounce

Category: Finishing & Safety Products

\$9.69

J.W. etc.'s water based Polyurethane Varnish is non-toxic, offering high durability with easy application. It has an unlimited range of uses.

Just two coats of Polyurethane Varnish, instead of the four to six coats required of other brands, provide quick build up. It is smooth and easy to apply with fewer brush strokes showing. When applied at full strength, it serves as a sealer coat. Apply with a roller, brush or spray. It can also be thinned with water.

Gloss provides a beautiful high gloss sheen; Matte is truly flat! You can combine that Matte and Gloss to achieve a perfect, custom satin finish.

J.W. etc.'s Polyurethane Varnish never bubbles, doesn't "amber" and always provides you with an extremely hard, durable, elegant and professional looking finish. Clean up is easy with plain water. This varnish also works well over jewelry pieces.

J.W. Etc. Right Step Varnish 16 ounce

Category: Finishing & Safety Products

\$7.99

Right-Step is a non-toxic, water-based varnish that dries clear to the touch in 15 minutes.

Right-Step is available in matte, satin and gloss finishes.

When dry it is odorless, durable and does not yellow with age.

Originally developed for the decorative artist, JW's Right-Step varnish has earned the reputation as the #1 choice for artists of all mediums and levels of expertise. Right-Step may be applied over oil or acrylic paints and stains with good adhesion.

Right-Step will NOT BECOME TACKY or sticky when exposed to a high level of humidity! The "high-solid" content produces a tough, protective coat over any object to which it is applied.

Right-Step is a non-toxic, water-based varnish that dries clear to the touch in 15 minutes. Right-Step is available in matte, satin and gloss finishes. When dry our varnish is odorless, durable and does not yellow with age.

Originally developed for the decorative artist, JW's Right-Step varnish has earned the reputation as the #1 choice for artists of all mediums and levels of expertise.

Right-Step may be applied over oil or acrylic paints and stains with good adhesion.

Right-Step will NOT BECOME TACKY or sticky when exposed to a high level of humidity! The "high-solid" content produces a tough, protective coat over any object to which it is applied.

J.W. Etc. Right Step Varnish Satin Gallon

Category: Finishing & Safety Products

\$53.89

J.W. Etc. Safe Strip Paint Stripper 8 OZ

Category: Finishing & Safety Products

\$5.99

NON-TOXIC. NO METHYLENE CHLORIDE. NO CANCER CAUSING AGENTS. WILL NOT BURN SKIN. NO HARMFUL CAUSTICS. NO CONTAMINATION. NO POLLUTING VOC'S. NON FLAMMABLE. NO ACETONE. NO PHOSPHATES. AND IT WORKS!

J.W. etc's Safe Strip is a state of the art remover that is effective on most surfaces such as: wood, marble, concrete, brick, deck paint, fiberglass, metal, cloth, tile, baked enamel, stainless steel, Safe Strip most types of paint or coatings such as vinyl, enamel, varnish, shellac, ink, glue, graffiti, carpet, upholstery, etc. It removes built up residue easily and yet is safe to the skin. There are no cancer causing agents, no methylene chloride, no polluting voc's, no acetone, no phosphates and no harmful caustics.

A miraculous new product for removal of graffiti!!!! The ease of application and the results from this nontoxic state of the art remover are truly astounding. Simply apply with a brush or sprayer, lightly agitate and hose off with water. No product is easier or more effective.

J.W. Etc. Satin Polyurethane Varnish Gallon

Category: Finishing & Safety Products

\$54.99

J.W. etc.'s water based Polyurethane Varnish is non-toxic, offering high durability with easy application. It has an unlimited range of uses.

Just two coats of Polyurethane Varnish, instead of the four to six coats required of other brands, provide quick build up. It is smooth and easy to apply with fewer brush strokes showing. When applied at full strength, it serves as a sealer coat. Apply with a roller, brush or spray. It can also be thinned with water.

Gloss provides a beautiful high gloss sheen. Matte is truly flat! You can combine that Matte and Gloss to achieve a perfect, custom satin finish.

J.W. etc.'s Polyurethane Varnish never bubbles, doesn't "amber" and always provides you with an extremely hard, durable, elegant and professional looking finish. Clean up is easy with plain water. This varnish also works well over jewelry pieces.

J.W. Etc. Textured Gel Glaze

Category: Finishing & Safety Products

\$5.95

This Glaze is different from any other glaze on the market. It is so thick that it stays on a vertical surface without running. It has just enough open time so you can manipulate your work easily and yet dries fast enough that you don't have to wait hours to apply multiple coats.

The thickness allows you to create faux textures or if texture is not desired soften the effect with a brush or rag.

The amount of paint added can be varied depending on the intensity of color desired. The result is a transparent depth of color with an easy-to-achieve textured look.

Easy clean up with water.

J.W. Etc. UnderCover Black Primer/Sealer 16 Ounce

Category: Finishing & Safety Products

\$12.10

Prime almost anything.

UnderCover is a great beginning! This opaque primer is water-based, non-toxic and environmentally friendly. This special formula was created to prepare almost any surface. Its thick gesso-like coat makes it amazingly fast and easy, but without the chalky feel sometimes left by gesso products. Once applied, you will be ready to begin your artwork. You can mix with any color paint to create great variations.

Designer Kathy Begala, CDA, demonstrates the product using her famous fabric on wood technique. After applying fabric to a wood cut-out using J.W. Etc. First Step, Kathy basecoats the areas to be painted using UnderCover. Even though the fabric is quite dark, you can see the intense coverage provided with just two coats of this product! She then paints in the details of her design.

J.W. Etc. White Lightning 32 OZ White Wash and Sealer

Category: Finishing & Safety Products

\$19.40

White Lightning combines a sealer with a white stain in one water-based product. Use it for the perfect prep or basecoat. It's ideal for all woods, including green wood, as it prevents seeping through. White Lightning may also be mixed with any brand of acrylic paint to obtain a color-pickled effect on wood - or add just a touch of paint for a "customized" stain.

A thin coat of White Lightning may be applied over any acrylic paint to achieve a "white antiqued" look. For a "White Wash" look, apply White Lightning over oil-based stain.

White Lightning may be used on wood (including cabinets, walls and floors), canvas, candles and glass! It may be used in a spray bottle to decorate wreaths and baskets.

To achieve special and unusual effects, try the "wet-on-wet" technique. Use acrylic paint over wet White Lightning as a medium. Also works great to streak acrylic color over wet White Lightning for a softer "dry brush" effect.

J.W. Etc. Wood Filler 8 OZ

Category: Finishing & Safety Products

\$4.10

Wood Filler 8 OZ -Stainable and Paintable

J.W. etc.'s Professional Wood Filler Wood Filler is more than an ordinary wood filler. It accepts stain beautifully and easily and can be thinned with water! You can mix it with acrylic paint to achieve a special color.

A thick mixture can be used on craft pieces as "texture paste" for fantastic special effects. . .like a mustache and beard on a Santa Claus, fur on an animal or three dimensional flowers.

Wood Filler offers you many applications. It adheres to wood, metal, glass, stone, pottery and gourds. It is perfect for refinishing projects, providing you with the ultimate in professional results. Clean up is easy with just soap and water!

Jar Gaskets for K-Grip/Critter Paint/Finish Sprayer - PKG of 5

Category: Finishing & Safety Products

\$5.75

This gasket is a Paper material gasket. It is the same type gasket that came with the Critter & k-Grip Spray Gun

K-GRIP Siphon Paint/Finish Sprayer

Category: Finishing & Safety Products

\$30.99

INEXPENSIVE 3/4 hp. TANKLESS DIAPHRAM COMPRESSOR IS ALL YOU NEED TO OPERATE THE 118 SIPHON GUN.

The Siphon Gun runs off a minimum 3/4 hp or larger air compressor. It sprays anywhere from 10 - 90 PSI and consumes 2-3 cfm at 90 PSI. A good general pressure to start spraying at is 30 PSI. Prior to applying you finish, test the spray pattern on a piece of scrap wood or cardboard to ensure that the air pressure setting and viscosity of the material will allow the K-GRIP Siphon Gun produce good results. Depending on the test results, if the viscosity of the material is too thick it may require thinning or the pressure may need to be increased. If the material is thin and runs easily then lower the air pressure and possibly lower the position of the liquid nozzle to reduce the amount of material being pulled up the tube.

K-GRIP Sprayer Plastic Replacement Jar

Category: Finishing & Safety Products

\$3.68

This is a plastic jar for the new models of k grip spray gun. Little smaller mouth than the standard mason jar.

Maintenance Kit for K-Grip/Critter Paint/Finish Sprayer

Trimaco 10 PACK Disposable Vinyl Gloves

Category: Finishing & Safety Products

\$1.45

One size fits most. Will fit either hand.

These gloves offer light weight protection while painting, finishing, gardening, cleaning and automotive work.

The gloves contain no latex, which makes them great for those with latex allergies.

Lightly powdered and economical.

Trimaco 6 Pair Disposable Blue Nitrile Gloves

Category: Finishing & Safety Products

\$2.35

Trimaco 6 Pair Disposable Blue Nitrile Gloves L/XL. Better than other Disposable Gloves at GREAT Price

The gloves do stretch when putting on so a smaller hand could most likely use them also. One shape to fit either hand.

These are our most popular disposable nitrile gloves for light to medium duty non-medical tasks. Resistant to many chemicals these nitrile gloves are formulated to go on easy and provide consistent quality at a reasonable price. Unlike other industrial grade gloves these nitrile gloves are not seconds or rejects.

Soft and durable gloves offer medium weight protection with woodworking, paint stripping, painting, cleaning, finishing and automotive work. Nitrile gloves are highly resistant to alcohol and petroleum based products and are more puncture resistant than latex. Can be used over as long as not torn.

Trimaco Cheesecloth 4 Sq Yd

Category: Finishing & Safety Products

\$2.56

For cooking and straining, dusting and buffing, staining, polishing, and faux finishing. Bleached white cotton. Absorbent.

Cheesecloth also works great for straining varnishes, stains and other liquids.

Just fold up a piece of cheesecloth and the layers will give you a nice clear liquid.

Very universal cotton cloth.

Easel Back Hinges

Category: Hinges

\$0.18

Each of our easel hinges was designed to ensure you'll receive the highest quality self-fastening hardware on the market.

In fact our innovative patented design has become the worldwide industry standard as an alternative to the labor intensive rivet type hinges.

They are just installed by pounding them in with a mallet on a solid surface.

If going into a harder material (like mdf) than press board used on frame backs, you may need to press them in with a vice or similar to give even pressure and more uniform.

1-1/8" wide Each half 3/4" high

Kerf Hinge Saw Blades & Universal Arbor

Category: Hinges

\$33.98

Kerf Hinge Saw Blades & Universal Arbor

These saw blades were specially engineered to make quick and easy work of kerfing your frames or boxes. A universal arbor allows for a variety of different equipment mounting options. All other kerf hinges use either the .022, .032 or the .046 saw blades. The .022 is for the small kerf hinge. The .032 is suggested for use with soft woods and the .046 is suggested for use with hardwoods. .032/.046 2 3/4" O.D. 1" I.D.

This arbor accepts all of the kerf blades. Use this Arbor with a 1/2" shank to make your kerf slot for Kerf hinge line.

Large Kerf Hidden Hinge - No Screws Needed

Category: Hinges

\$0.22

This popular specialty hinge adds an elegant hidden look to your box.

1/4-20 Brass Finsert Threaded Insert

Category: Threaded Inserts

\$0.33

Double Fin .375 Long

Finserts prevent splintering, splitting and thread pullout.

Finserts provide strong metal threads for wood, composition board and thermoplastics such as nylon, polystyrene, cellulose acetate and cyclocac.

By distributing stress over a greater surface area, firm permanent fastening is ensured. The fins give higher holding strength in softer materials.

1. Drill a .328 hole. (21/64) 2. Press Finsert into place. 3. Insert expands/locks as fastener is threaded into place.

1/4-20 Brass Threaded Insert Ez Lok

Category: Threaded Inserts

\$0.46

Suitable for use in hard or soft woods. Coarse pitch thread design reduces danger of splitting wood. Superior pull-out and vibration resistance. One-step, self-tapping installation.

Wide thread spacing provides stronger threads for greater pull-out resistance.

Coarse pitch external thread for maximum strength and installation in small wood sections with less danger of splitting.

Whether you're working with hard or soft wood, particleboard, or MDF, using the screw insert will provide a stronger, more durable, fastening method. This will allow you to assemble and disassemble as many times as needed.

Hole Size 3/8 inch Length 0.500

Made in U.S.A.

1/4-20 Brass Threaded Insert Small Diameter

Category: Threaded Inserts

\$0.46

This insert has thinner walls so it is a little weaker than the Ez Lok ones. They are however an Excellent insert and used by MANY.

Suitable for use in hard or soft woods. Coarse pitch thread design reduces danger of splitting wood. Superior pull-out and vibration resistance. One-step, self-tapping installation.

Hole Size 0.312inch Length .500

Wide thread spacing provides stronger threads for greater pull-out resistance.

Coarse pitch external thread for maximum strength and installation in small wood sections with less danger of splitting.

Whether you're working with hard or soft wood, particleboard, or MDF, using the screw insert will provide a stronger, more durable, fastening method.

1/4-20 Die Cast Zinc Alloy Flanged Hexdrive Threaded Insert

Category: Threaded Inserts

\$0.19

An inexpensive insert for use in ready-to-assemble furniture, drawer pulls and wherever ease of assembly or avoidance of thread stripping is desired. Install with hex drive wrench or tool

Whether you're working with hard or soft wood, particleboard, or MDF, using the screw insert will provide a stronger, more durable, fastening method. This will allow you to assemble and disassemble as many times as needed.

Coarse pitch thread design reduces danger of splitting wood. Superior pull-out and vibration resistance. One-step, self-tapping installation.

Hole Size 0.203. Length 0.406

Install by putting a bolt w/stop nut in insert and turning it in with the bolt.

Wide thread spacing provides stronger threads for greater pull-out resistance.

Coarse pitch external thread for maximum strength and installation in small wood sections with less danger of splitting.

Whether you're working with hard or soft wood, particleboard, or MDF, using the screw insert will provide a stronger, more durable, fastening method.

Bright finish.

Blind Nailer & Nails by FastCap

Category: Tools & Accessories

\$4.50

Choice of three sizes 3/8 x 3/16, 7/16 x 7/16 or 1 x 5/8 Another cool idea from FastCap, the Blind Nail System allows you to hold stuff together without any visible fasteners.

They could replace a small clamp, holding small parts while the glue sets - all kinds of applications with molding and casework come to mind as well. Whatever you do with 'em, you're saving yourself work in the future by not having to fill nail holes or plug screw holes. The Blind Nail System allows you to conceal nails with ease. This great idea as an aid to instantly hold things together. At the same time, it gives you the benefit of a mechanical fastener that is not visible. The Blind Nail System is great for; molding, trim work, drawer front installation, leveling picture frames and can be used as an alignment pin system. Simply insert the dual head nail into the magnetized nail set and set the nail. Next, tap the molding or wood onto the protruding nail and you are done. Kit includes the tool and 100 nails (80 nails for 1 x 5/8 size). A package of nails contains 100 nails. The tool for the 1 x 5/8 nails is only available in the kit.

Chopshop Saw Hood Mounting Brackets 2 Pc Set

Category: Tools & Accessories

\$17.00

Brackets substitute for normal accessory holes on a miter box saw

Can clamp or screw directly into equipment frame

Set of 2

FastCap Accuscribe Scribing Tool

Category: Tools & Accessories

\$15.99

FastCap AccuScribe Pro Perfect Scribes Every Time - And More!

Scribing is the secret to getting nice tight joints wherever odd shapes or uneven surfaces meet. Scribing done with a dime-store compass, or a block of wood and pencil, yields results that are often less than satisfactory.

AccuScribe Pro makes it easy to maintain a consistent scribe offset due to the wide, flat back and articulating pencil holder. The adjustable head even allows you to scribe the back of molding and trim! But, as they say on TV, there's more: insert a compass pin into the tip and Accuscribe Pro can draw up to 24" diameter circles (using a long pencil), use the marking gage lip to layout cut lines, or use the built-in sharpen to get a nice point on your pencil.

The Accuscribe from FastCap scribes cabinet trim, architectural moldings, countertops, tile and more for cleaner cuts and more creative freedom on a wide variety of projects.

FastCap Babe-Bot Dripless Glue Bottle 4 oz

Category: Tools & Accessories

\$3.89

The Babe-Bot from FastCap is the ideal dispensing bottle for most types of glues or solvents.

Babe-Bot does not have the glue guide option. It is not made for Babe-Bot

No dripping. Replaceable tip. Wide mouth for easy fillin. Wide bottom for extra stability. Works with most glues or solvents

This glue bottle feeds from the bottom, so you never have a problem with the the surface "skinning" over and clogging the tip.

When you are done applying the glue line and release pressure on the bottle, the resulting suction action finishes off your glue line with no drips or mess.

The 8ounce size is great for the woodworker and hobbyist alike. Comes packed with one

FastCap BabeBot Tips and Parts

Category: Tools & Accessories

\$1.00 per pack of 5

All of the parts come with 5 pieces in each package except the lid and ring which is one piece each.

Be sure to pick the correct type of bottle for the parts to match.

Choice of Yorker Tip, Blade Tip, Red Cap, and Lid & Cap for the BabeBot

FastCap Ballistic Apron, Self-Healing by FastCap

Category: Tools & Accessories

\$39.79

This is a quality Ballistic Apron in black with self-healing pockets. These pockets allow you to tear them open via the hook & loop material and empty your contents of sawdust. This self-healing feature also allows you to carry sharp instruments, such as chisels or awls, without cutting or puncturing the material.

This nylon apron has a pair of straps that go over the shoulder, cross in the back. The design places all of the apron's weight upon the shoulders, not the neck, making it comfortable enough to wear all day.

Made out of rugged ballistic nylon. Rivets in critical wear points. Long, fully adjustable straps, for all sizes, with quick disconnect

Self-healing pockets that allow you to tear them open via the hook & loop material and empty your contents or sawdust. This self-healing feature also allows you to carry sharp instruments, such as chisels or awls, without cutting or puncturing the material.

Fastcap Flush Cut End Nipper Pliers

Category: Tools & Accessories

\$14.75

Flush cut tricky materials, like edge banding, to 3mm thick!

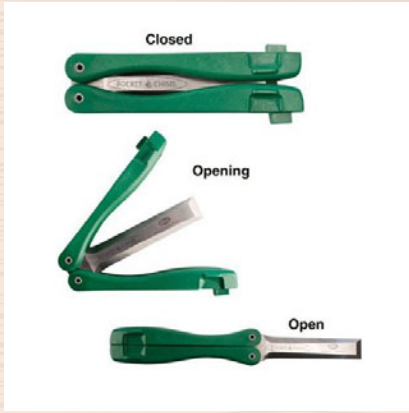

Made to cut edge banding flush

Can cut soft non-ferrous metals to 3 mm

1" wide

6-1/4" long

End Nippers are different from many flush cut trimmers due to their unique shape, which allows them to flush cut edge banding to 3mm thick as well as soft metals like Brass and Copper. Don't use these to cut nails — save that job for the heavy-duty Flush Cut Trimmers. Nippers cut up to 1" wide in a single cut. The handle is covered with textured material for a sure grip. Nipper is 6-1/4" in length.

FastCap Folding Pocket Chisel 4 Sizes

Category: Tools & Accessories

\$17.50

- Heavy duty folding handle
- Precision tool steel
- Strong Stainless Steel Pins
- Safe to keep in your pocket
- Keeps your blade sharp

The new Pocket Chisel not only has a heavy duty handle that keeps the blade from getting dull, it also keeps the chisel from tearing thru your pocket. The new Pocket Chisel is made of precision tool steel and has a heavy duty nylon 66 handle that locks when opened and will stay locked so that you can hammer the hell out of it. The Pocket Chisel handles are color coded to eliminate having to guess which chisel you are pulling out of your pocket.

FastCap Glu Bot Tips and Parts

Category: Tools & Accessories

\$1.00 per pack of 5

- No dripping. Replaceable tips
- Wide mouth for easy filling. Wide bottom for extra stability
- Works with most glues or solvents

This glue bottle feeds from the bottom, so you never have a problem with the the surface "skinning" over and clogging the tip.

When you are done applying the glue line and release pressure on the bottle, the resulting suction action finishes off your glue line with no drips or mess.

Comes packed with one glue guide, one Yorker- and one Blade-style tip

FastCap Glue Nip

Category: Tools & Accessories

\$4.05

We now have another new product available called the GluNip!

2 per Package FastCap Glue Nip

It is a durable silicone tip to fit over your glue bottle that will not clog because the glue does not stick and will keep your glue fresh!

You cut the tip to the desired depth depending on how much of a flow you want to disperse, and you can use it to rub or spread your glue.

It can even be used on other shop solvents like lacquer thinner, acetone, denatured alcohol and etc.

This stretches quite a bit so fits on a variety of sizes. It is a great compliment to the 16oz Glu-Bot

FastCap Handle on Demand Suction Cup Add a Handle

Category: Tools & Accessories

\$6.98

Stop straining your back trying to lift heavy stuff... suck it up! With our HOD, (Handle on Demand) single or double, just fasten the suction pads to any non-porous surface and move it, lift it, place it, transport it... you decide.

Fastcap Heavy-duty Flush Cut Trimmers Pliers

Category: Tools & Accessories

\$17.25

Cut and catch!

Cut nails to 1/8" - but not hardened screws

Magnets catch the cut nail debris

When the End Nippers are not enough, pull out the heavy-duty Flush Cut Pliers to cut things like nails.

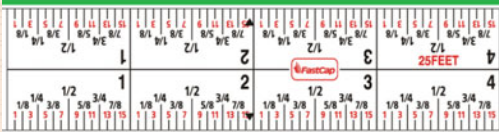

And you can trust that you aren't leaving scraps around because these pliers come with two removable magnets to trap the cut off nail head. The head of the pliers is flat and angled so you can cut flush or pry up. The handle is covered with textured material for a sure grip. Pliers are 8" in length.

FastCap Staple Setter

Category: Tools & Accessories

\$7.05

1/4" staples will never be a problem again! The new Staple Set solves the long time problem of misfired 1/4" staples.

Recess crown staples perfectly at 1/16" below the surface, with just the tap of a hammer, like your nail gun was supposed to, with no struggle.

FastCap TaperLock Deluxe Bit Holder

Category: Tools & Accessories

\$8.79

Works with smooth shaft tips, round or worn shank bits

Engineered to grip the hexagonal bit surface and leaves no wobble

Autolock, auto release system allows it to lock or release with one hand

TaperLock is the first bit holder that works. The harder you pull, the tighter it gets.

This unique patented design uses a tapered spindle to firmly hold any bit in place. It also features a one-touch auto-lock for easy release of the bit.

Pull out on the red collar while grabbing the bit and the TaperLock releases. Push the bit in and slide the red collar toward the drill and the TaperLock is locked.

Works on any bit. Works great with bits that don't have indents, notches, or grooves. It also works with C 6.3 and E6.3 bits.

FastCap Tip Magnet to make virtually any driver magnetic

Category: Tools & Accessories

\$8.99

Magnetizes any steel driver tip or screwdriver

Fits up to 5/32" shafts

Magnetic Micro Square by FastCap

Category: Tools & Accessories

\$16.99

Free-standing magnetic square

Use with table saw, band saw and other equipment

Powerful neodymium magnets for hands-free use

Will anchor to your cast-iron table

Less than 4-1/2" tall Small and sturdy, this free-standing magnetic square takes the effort out of squaring up your table saw, band saw, and other equipment. Two powerful neodymium magnets are embedded in the oversize base to keep it anchored to your cast-iron table for hands-free operation.

Standing less than 4-1/2" tall, it takes very little storage space. Can be stored under your saw for easy access.

McGuire-Nicholas Monster Hook

Category: Tools & Accessories

\$5.25

Meet the Monster hook. This tool may look simple, but it's like having an extra hand. Hook this onto your belt to keep your tools or supplies within arms reach at all times, less bending means less fatigue. The versatile belt clip lets you hang it just about anywhere. The Monster Hook performs the function of a tool holster with improved capabilities and ease of use; it costs less too. The product is comprised of a large hook coupled to a molded housing that clips to a belt. The hook itself rotates side to side, through 180 degrees. This allows it to achieve a good balance point regardless of what tool a user is carrying and to maintain its balance point while the user is climbing or bending. Monster Hook's diameter is large enough to fit just about any power tool handle including cordless drills, cordless circular saws pneumatic nail guns.

Holds most cordless drills, nail guns, saws, gardening tools and many other items. Designed for left or right hand use. Rotates 180 degrees

Square N Tape by FastCap

Category: Tools & Accessories

\$4.95

Straight line, every time! Square N Tape piece only.

FastCap's new Square N Tape eliminates the tedious back and forth of marking and measuring with your tape, placing it back into your tool belt, and then drawing a line with your square.

This all-in-one tool encompasses 8 great features and cuts stud layout time in half! Can be added to most 16 and 25 foot tape measures. Simple to add tape measure with the double face tape supplied or other glues. Video showing how.

Square N Tape With 25 Ft Tape Measure by FastCap

Category: Tools & Accessories

\$12.49

Straight line, every time! A Standard 25 Foot Tape measure comes already added.

FastCap's new Square N Tape eliminates the tedious back and forth of marking and measuring with your tape, placing it back into your tool belt, and then drawing a line with your square. This is an improved color (yellow) so you can use a black marker to make a mark on one of the markings. So the black images will now be yellow.

This all-in-one tool encompasses 8 great features and cuts stud layout time in half! Comes with the tape measure already on the square.

USA Flag McGuire Nicholas Suspender in Red White And Blue

Category: Tools & Accessories
